I am a scientist and photographer living in the Washington DC area. Early on, I was mainly a landscape and wild-life photographer. As an outdoor photographer, I was fortunate enough to travel to many countries in six continents and capture many unique and beautiful moments. In the past two years, I have become passionate about portrait photography capturing the spirit and essence of people. Being a scientist, I love experimenting with my photography whatever the genre.

A chance opportunity to do a photoshoot with few very talented photographers in the DC, Maryland and Virginia (DMV) and extremely talented models from a Virginia based Gabbana Modeling agency led to this amazing photoshoot with Amy Alvarez at a local lake in Gaithersburg, MD. We took our time doing the photoshoot and at the same time having fun and documenting all of the moments.

Amy Alvarez is a 19-year-old fashion model. At a young age, she always dreamed of being a runway model. Her biggest inspiration as a

young girl was to be part of the Victoria Secret Runways. She would go to the mall and walk in the Victoria Secret store, and as soon as you know it, she was standing in front of their platform tv watching the models walk the runway. She fell in love with modeling instantly. Amy's first runway show was at the age of 16. Ever since then, she was one step forward in learning what she loved most. She has done numerous photoshoots and runways. Her goal is to dive in more into the fashion industry and aim high and one day become the successful model she aspires to be.

Delune Photography is a duo team of 2 Professional Models and Photographers of over 10+ years, but really we are just an all around creative couple of artists. We make a lot of different forms of content and art. Online Content is our main form of art tho. Honestly our dream is to just make art, and make others happy. If we can spark a reaction of any kind from our art, then we've met our goal. we are both huge nature lovers,

who are obsessed with space, so we try our best to incorporate nature and space into our work. But really, We just love bringing ideas, and stories to life with our art. Almost every image of either us, or our photography, We try to convey a story within it. For the past 10 years, We've been studying and learning photography and modeling, at the professional level and really enjoying the artistic aspects of both, and In those 10 years, we have,

either as a model, or photographer, graced countless of magazines, runways, commercials, catalogs, websites and more. Through the years, We've had the pleasure of meeting a lot of very cool, interesting, and kind people. We are social butterflies, so obviously this was heaven for us. People leave impacts on you, and this job of ours, regardless of if We're the model or photographer, allows us to meet lots of people, who usually leave impacts on us and vice versa, and learn lots of new things. Learning and teaching are also passions of

ours. We enjoy any shoot that allows us to learn something new from it or teach something new to others.

We love making art, and love showing it off.

We hope you enjoy our work, and We welcome you to our world.

My names Faye Delune, and I'm A Professional Model and Photographer, of over 10+ years (and counting!) , but I'm really just an all around creative person and artist. Almost every image of either me, or my photography, I try to convey a story within it. In 10 years, as a model, I have graced countless of magazines, and runways, but I think my most notable achievement was being a model for hot topic repetitively, but as well as a photographer who helped me start my portfolio off, 10 years ago. Through the years, I've had the pleasure of meeting a lot of very cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. Nora Lotz is a German singer/songwriter with musical folk influences. The music is next to poetry and dance improvisation means of expression and outlet for her intense feeling and thus means life for Nora. Sometimes quiet and contemplative, sometimes loud and rhythmic - Nora Lotz accompanies herself on the guitar and manages to captivate the audience with her clear, expressive voice.

Dreams bring us humans back to life – Nora's Song 'Faithful Heart' is inspired by the Disney movie 'Cinderella' (2015). This Song collaboration will be out on all music platforms on the 15 of May 2022. Nora's curiosity and spontaneity take her to all different places in 2021 she won the Openmic3land Contest in France. Followed by a collaboration with El Speaker at SutherKane in Paris together with two female Artists she wrote and recorded 'Let It In' the Song and Music video (produced by: onecommulhouse) are out now.

The Song 'Weil die Welt sich dreht' written by Nora appeared on 'City of Music Radio Hannover' in 2022 and on the Soli Sampler by women\* in music hannover in 2021.

From the year 2004 to 2016 she took part in various children and adult Musicals at the open air theatre in Tecklenburg.

Her first EP JAM JAR was released in 2016 and since then she accompanied different musicians and gained first national and international tour experiences.

What are your current challenges Nora?

"One of the things to figure out in studio is to find the right individual sound. I'm grateful for all teachers in my life who open my eyes and ears and help me grow into myself. Playing original songs on "click" is definitely one of the bigger challenges to me as it requires a great mix between emotional dynamics and a clear structure. Stay curious & be gentle with yourself you over there!"

What is your biggest Dream?

"I once had a conversation with my heart during a meditation and asked: "Am I enough?" Her response gave me shivers: "You are the epiphenomenon of my dreams." To record and release my first Album and share it in concert form in the international touring 'Cirque Bouffon' is mine for now."

My name is Shantel Davis. I am from Miami Florida. I am a Fashion Designer and Seamstress. I started sketching styles at the age of 11. Then at the age of 13 I started learning how to sew in Home Economics. Then it became an addiction. In high school I sketched my latest styles. I own a lot of portfolios. At the age of 17 I sewed and designed my own costume for a talent show I was in. I made a dress without a pattern. My Mom, Aunt and my Grandma use to sew. You can say that it runs in the family. I learned that my Mom designed clothes for my siblings because clothes were too expensive back in the days. So she cut and sew all of her designs. But I wanted to better my sewing and designing so I took classes at Miami Dade College. I graduated with an associate degree. Then I met Marie Jouberthe in 2008 she taught me how to design my own patterns. I took everything that I learned from her and I am applying it in every style that I want to design. So I have been taking classes here and there just to hone my skills. I have sold over 50 of my collections from Online, Consignment Stores and from the Flea Market. My next step is to get my clothing line in Macys, Jcpenny or in any most talked about Retail store. I also helped 48 Models that I have worked with to get published in Model magazines. There is more to come.

No bigger dream than doing what you love is existing for me - being a musician, playing/arranging and composing different styles, from Rock/Pop to Funk, Jazz, Blues and Soul / RnB to orchestral music combined with artists of the electric scene.

As a guitarist I am currently playing live and in the studio for Austrian star Josh., composing and playing for the international stars Waldeck and The Horny Funk Brothers feat. Hubert Tubbs ( Ex Tower of Power). Furthermore I played with Mat Bianco, Camo and Krooked ( studio ), Lana Gordon, Christina Stürmer, Christian Kolonovits, Austrian orchestras and many more mainly in Europe, also doing film music for Disney, BBC productions and studio work for German musical companies.

In the future the work as a songwriter and producer

is getting more and more important for me.

Besides that my work on improvised instrumental music - combining different musical worlds like I did with bands like Coup DeBam ( no 1 itunes charts in World music ) - is another focus next to modern pop music I am into.

Mainly cooperations with musicians and acts of the electronic scene are interesting for me- and hopefully- interesting for them too, based on my knowledge not only in improvised but also written classical and modern music.

So I am looking forward to everything what is coming!
