My journey with dance started when I was 3 years old as a ballerina in 1989. Over the years my body grew faster and larger than others. I eventually quit dancing for a few years in high school because I was made to believe I was too fat to be a ballerina and I would "never look like a dancer". In college circa 2005, I took a class for exercise and fell in love with dance again. I ended up majoring in dance at CSUEB and began creating work for my dance company A.V.I.D. But the world was harsh and not open to seeing and providing opportunity for bigger dancers to take class or perform. So I decided to end my dance career and focus on running my own small business - Shop With Amy Marie. In 2017 I had a major breakdown after losing 4 family members, my dog, and breaking up with my boyfriend of 7 years. The only thing that got me out of bed and got me to function again was dance. I started training and feeling better about myself, and my body and my purpose in the world. It took me 33 years before I was able to stand in front of a mirror and see a dancer. Once I did, I began my mission to teach others what I know- about dance, about life, about loving and taking care of themselves(Feed Yourself Love). No matter what size, shape, race, religion, ability, gender, whatever you are or identity as - if you want to dance, then I say DANCE!

Currently I am creating dance videos and sharing them on social media, teaching dance to kids, teens, and adults at In Motion Dance Center and look forward to encouraging all bodies to be fierce movers and shakers. If you were to ask me how does someone have a dancer's body? I'd say 1. Have a body and 2. Dance. For more info and to see what my community is up to search #dancewithamymarie on all social media platforms. ♡

I have always loved being in front of the camera. My grandmother gave me my first antique camera when I was very young and I have been collecting them ever since. My mother is a photographer, so I love helping her with clients. Getting started has been the hardest challenge but after working hard it finally has payed off and besides being a model

I am a full-time college student working to get my degree in psychology. I love being able to help others in any way that I can.

My names Faye Delune, and I'm A Professional Model and Photographer, (Delune Photography) of over 10+ years, but I'm really just an all around creative person and artist. I make a lot of different forms of content and art. Online Content is my main form of art tho. Honestly my dream is to just make art, and make others happy. If I can spark a reaction of any kind from my art, then I've met my goal. I'm a huge nature lover, who's obsessed with all things astrology and space. so I try my best to incorporate nature and astrology into my work.

But really, I just love bringing ideas, and stories to life with my art. Almost every image of either me, or my photography, I try to convey a story within it.

For the past 10 years, I've been studying and learning photography and modeling, at The Professional Level and really enjoying the artistic aspect of both. In 10 years, as a model and photographer, I have had the honor of being featured in/on countless of magazines, runways, commercials, editorials, catalogs, websites, social medias, and more. Through the years, I've had the pleasure of meeting a lot of very

cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. People leave impacts on you, and this job of mine, regardless of if I'm the model or photographer, allows me to meet lots of people, who usually leave impacts on me and vice versa.

I love making art, and love showing it off.

I hope you enjoy my work, and I welcome you to my world.

Katie Barrow

Katie Barrow began dancing at aged two with ballet and went on to introduce Jazz, Tap, Hip Hop and Acro. When she was 8 Katie began competing at various modern dance competitions around the country. It was here she found her happy place, on the stage. Katie now competes in Jazz, Lyrical, Hip Hop, Contemporary and Musical Theatre.

More recently Katie has faced bullying at her dance school and has therefore moved to a new school where she has settled well. She has rekindled her first love of ballet here and is thriving in an environment that is both challenging and supportive. Katie wants to encourage anyone who is being bullied to speak up so they can get the help they need.

Katie's dream is to continue dancing for as long as she continues to find joy in it. She is keen to grow and extend her skills through working with as many different choreographers and teachers in the dance world. Katie is excited to make the most of every opportunity.

At only 10 years old Katie has already achieved so much, winning competitions for her age group and other overall awards at a local, regional, and national levels. But the bigger achievement for Katie has been taking on board the character-building aspects of the challenges she has faced, ultimately making her a better person.

Katie's goal is to take what life throws at her and make the most of it. She also wants to continue to upskill in dance and get more into acting and modelling. Katie has a taste of the movie world and is keen to do more in that area. There really is no limits to what this child can and will do in future so watch this space!

For every dark night, there's a brighter day.-Tupac Shakur

The goals I have accomplished at 23 years of age seem minimal; however, I have managed to be a super mom at the same time that I model to expand my career in receiving a PhD in Early Childhood Education. With more goals to accomplish, such as purchasing a home by 26 and buying

property so that my daughter can have assets is extremely important to me.

Some dreams I posses are moving out of state, becoming the woman I have always imaged I'd be, quit working a 9-5 and become a model not only on Instagram but also a fashion model.

Life is full of challenges and

even though some days feel and seem harder than others I always try to remember to have "Patience" life is moving at the pace that we move and whatever we want we can have. The things we do as young adults set us up for our senior life.
